

# Illusion Diffusion HQ

Generate stunning high quality illusion artwork with Stable Diffusion

Illusion Diffusion is back up with a safety checker! Because I have been asked, if you would like to support me, consider using [deforum.studio](https://deforum.studio)

A space by AP [Follow me on Twitter](#) with big contributions from [multimodalart](#)

This project works by using [Monster Labs QR Control Net](#). Given a prompt and your pattern, we use a QR code conditioned controlnet to create a stunning illusion! Credit to: [MrUgleh](#) for discovering the workflow :)
